

naylor

Environmental Policy Statement

At Naylor, we aim to continually reduce the environmental impact of our operations and consider climate change in everything we do. Performance against this statement is reviewed regularly and the statement is updated

Our Goals

Naylor is committed to minimise:

- Greenhouse Gas Emissions – we monitor our carbon emissions & are focused on achieving operational net zero carbon dioxide (CO₂) by 2050*.
- Energy consumption – we continually explore innovative energy-saving technologies & are focused on improving energy efficiency in all operational areas.
- Environmental impact – Naylor aims to operate in accordance with best available techniques.
- Waste – Naylor seeks to ensure minimal waste goes to landfill & all wastes are processed in-line with relevant waste regulations (the 'waste hierarchy' principles).

*Excluding Scope 3 Emissions

Our Responsibilities

We aim to achieve legal compliance and beyond with all legal requirements of current Environmental Legislation & Regulations. We seek to:

- Develop our business in an environmentally conscious & sustainable way
- Reduce/eliminate our environmental impact
- Select resources ethically & utilize them in an environmentally sustainable manner
- Prevent Pollution through well designed and engineered systems
- Provide a framework for setting and reviewing progress to achieve Objectives and Targets

Our People

All our employees play their part in developing a culture of environmental stewardship & excellence.

We aim to provide communications, education & training, ensuring all employees are environmentally aware & able to make a positive impact in terms of their actions & ideas.
