

At Naylor Drainage, we aim to continually reduce the environmental impact of our operations. Performance against this statement is reviewed regularly and the statement is updated annually.

Our Goals

Naylor Drainage is committed to minimise:

Greenhouse Gas Emissions

We monitor our carbon emissions & are focused on achieving operational net zero carbon dioxide by 2050*.

Energy Consumption

We continually explore innovative, energy-saving technologies & are focused on improving energy efficiency in all operational areas.

Environmental Impact

Naylor aims to operate in accordance with best available techniques.

Waste

Naylor seeks to ensure minimal waste goes to landfill and all waste is processed in line with all relevant waste regulations (the waste hierarchy principles).

*Excludes Scope 3 emissions

Our Responsibilities

We aim to achieve compliance & beyond with all legal requirements of current environmental legislation & regulations. We seek to:

- Develop our business in an environmentally conscious & sustainable way
- Reduce/eliminate our environmental impact
- Select resources ethically & utilise them in an environmentally sustainable manner

Our People

All our employees play their part in developing a culture of environmental stewardship & excellence.

We aim to provide education & training, ensuring all employees are environmentally aware & able to make a positive impact in terms of their actions & ideas.
